

## *PeLCer in Beverage*

**Strong and Quality in services & products  
for  
Industrial processes/production and Logistics**

## *Who we are*

- Industrial Automation services
- Automation-projects for process/production industry and logistics
- Succesfull in engineering services/products (electronics & software)
- Situated in Subotica, north of Serbia
- Founded in 2007 (Start up program Incubator Subotica)
- From the begining succesfull development of the company
- Team of qualified, enthusiastic, motivated techical professionals
- Flexibel and personal approach
- High quality standards

# Engineering-Services

- **Systems Design**
- **Design/selection and delivery of electronic components**
- **Software development**
  - PLC
  - HMI (Human machine interfaces), SCADA
  - Production information (Vbasic, C++, C#, Java, database)
  - Interfaces (ERP-systems) (OPC) (MES)
- **Design and production of panels**
- **Wiring and installation**
- **Testing (Services)**
- **Commissioning**
- **Maintenance (seperate of realisation-project)**
  - Corrective, Preventive, Small system-additions/changes

# Market-segments

**Specialized knowledge in domain of Processes.**  
Many, good actual project-ref.

- **Food & Beverage**
- **Packing (Converting industry)**
- **Paper**

**Working on projects:**

- **Feed (Animal food)**
- **(Green) Energy**
- **Water (waste and drink)**

**General:**

- **Batch industries/processes**
- **Logistics (internal and external)**

**Electronic systems/components & standard software:**

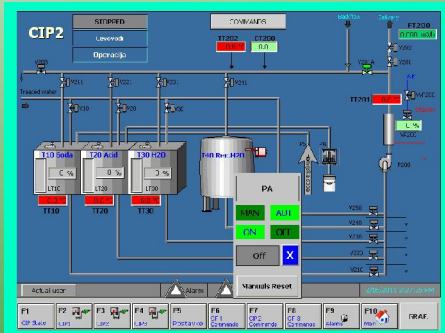

- **Marketsegments as Engineering**
- **Focus on Engineering-companies**

# Fields of activity

## CIP processes

The cleaning-in-place is an essential part of the overall system requirements. The cleaning procedures must be achieved with minimal disruption to the production processes and with complete assurance of its effectiveness.

# Fields of activity

## Blending, Mixing rooms

Product preparation with mixing, blending, dosing

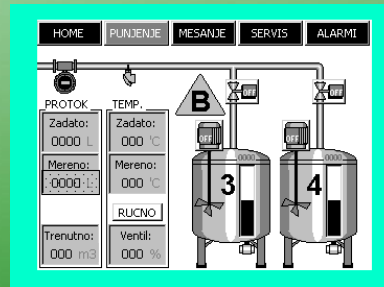

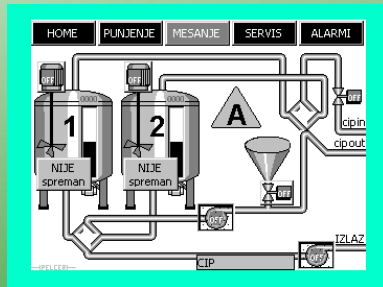

# Fields of activity

## Syrup Preparation

Syrup preparation with sugar weighting, dosing, melting, mixing

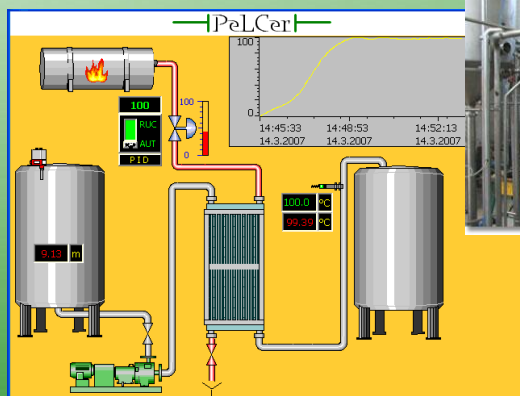

# Fields of activity

## Pasteurization

of product or syrup is one of the most critical point in every process

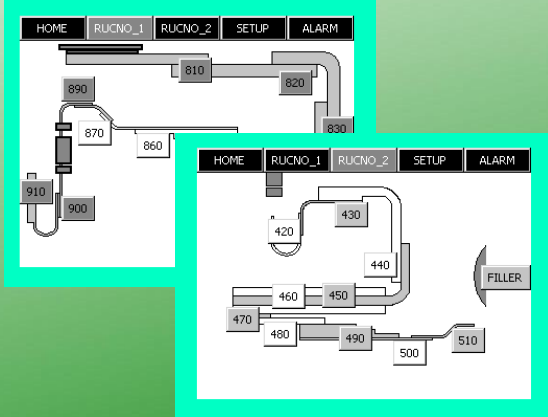

# Fields of activity

## Conveying & Palletizing

Even glass bottle high speed conveying control systems

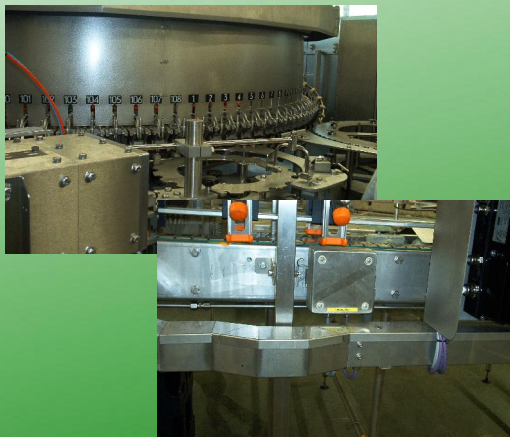

# Fields of activity

## Filling, Labeling, Packaging

New or used machine installations, start up, or machine refurbishing

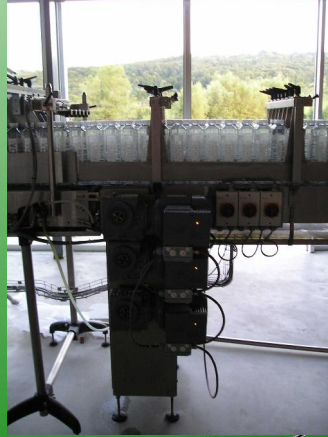

## References in Beverage

Multiple project ref.

- Coca Cola HBC Belgrade
